

THE HORIZON GROUP

A Minority Business Enterprise

The Horizon Group is a diversified provider of industrial repair services to industry. We manage and handle all elements of your repair program from the routing of all repairs to handling every element of your repair program.

By having your failed items repaired or refurbished, you can cut your operating costs and extend the useful life of your production assets. We repair a wide range

of products including robots, servo motors, servo amplifiers, light curtains, printed circuit boards, PLC's welders, pumps, and most of your higher cost, unsealed electrical and mechanical products.

Our goal is to provide you with seamless trouble free service and rapid repair capabilities. And, if you need to replace old products that have failed, we can provide you with these products.

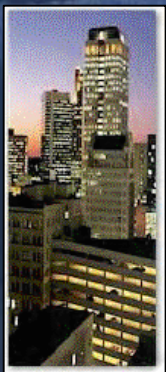

At Horizon, we work each and every day to meet your needs.
