WORKSTATION FAN

Ideal industrial ceiling, floor and wall fans

There has always been the need for strong **INDUSTRIAL FLOOR, CEILING & WALL FANS**. Our 12" workstation fan can withstand the abuse present in today's industrial plants. If its ceiling fans, floor fans or wall fans you need, the workstation fan is ideally engineered around the maintenance person. It's built tough with ease of cleaning and ease of maintenance being a priority.

MODEL # JF -12F

2 YEAR INDUSTRIAL WARRANTY

- 12" **aluminum blades** have a steel spider for extra strength and rigidity.
- **High efficiency** 3 speed, TE, 50 watt, 1Ph, 115V **maintenance free, permanently lubricated motor.**
- **10' long SJT type 3 conductor power cord.**
- **Fan sits securely** on any flat horizontal surface.

- **3-speed rotary switch** is located on the back of the fan.
- **Motor is totally enclosed** to eliminate motor wire exposure to dirt and other plant contaminants.
- Fan **also comes complete** with a "workstation" bracket that mounts with one bolt or lag screw to walls, ceilings, beams, workbenches, machines or any surface. **Fan head rotates 360 degrees** in both the horizontal and vertical direction.
- **Easy cleaning**, powder coated, safety yellow, steel guards have 4 "Quick Release Clips" to aid in rapid cleaning of blade and guards. Complies with OSHA regulations.
